

RANGE AT ONE SCALE · DOOR CLOSED / DOOR OPEN (200 HIGH)

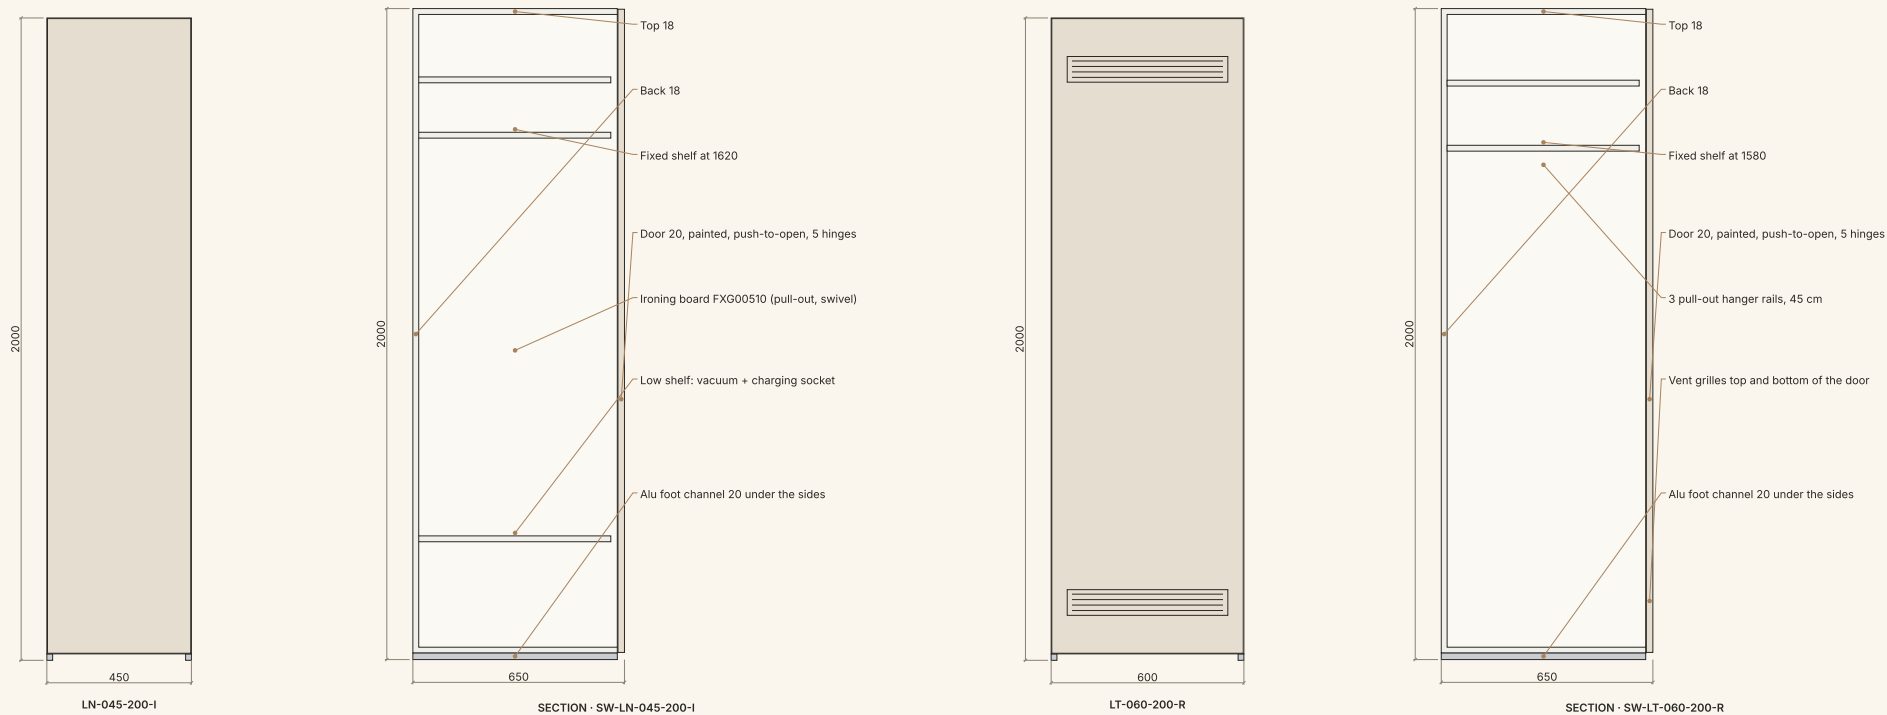

Tall laundry storage

Two tall modules that stand beside the PADOVA machine column and the SIENA bay, on the same 65 cm depth and the same 200 / 220 top line. **LUCCA** (SW-LN) is the narrow broom cupboard: brooms, mop and vacuum hang from a tube, the vacuum charges on a low shelf with its own socket, and the 45 cm version adds a pull-out swivel ironing board. **PARMA** (SW-LT) is the storage column: four adjustable shelves, or the drying version with three pull-out hanger rails and ventilation grilles at the top and bottom of the door.

SPECIFICATION

- Carcass: 18 mm board, unpainted; sides stand on aluminium foot channels, no board on the floor
- Door: one full-height door, 20 mm, painted both faces; handle-free, push-to-open on 5 hinges
- Inside: back 18 mm, one fixed shelf for stiffness, adjustable shelves on metal supports
- Rechargeable LED panel with a motion sensor in every column — no wiring
- Two steel angles anchor the column to the wall
- Hardware: Yaad Pirzul catalogue (codes on page 3)

- Install: fix the column to the wall with 2 angles; set the push-to-open latches at the top and bottom of the door.
- LUCCA: the vacuum socket needs a power point behind the low shelf — by a licensed electrician. Confirm the ironing board fits the 45 cm column before ordering.
- PARMA drying: the rails pull out towards the room; keep the door open or the grilles clear while clothes dry.
